DETAILS OF PERFORMANCE DURING THE YEAR:

It has been six years of my journey in Leoism and from the day 1 till today, I have never turned down any opportunity that has come in my way. One such fine opportunity to lead the prestigious Club, Leo Club of Juhu came across me in the year 2019-20 as I was elected as the Vice President. I embarked on the journey of learning the key leadership skills in very minute detail. Working shoulder to shoulder with the President and a constant involvement in the decision making gave me a first-hand experience of leading the organization at an early stage.

Year 2020-21 has been very special to me in terms of everything that it has given me. One such beautiful moment that I am going to cherish lifelong is going to be the term of my presidency in the middle of a global pandemic.

Consistency & Beyond: As soon as all the plans for the year were ready to be executed, we were all hit by a massive virus, turning all those ideas into mere thoughts and forcing us all to innovate, but even during these trying times Leo Club of Juhu came out stronger than ever

Youngest President & Golden Jubilee President: With over 6 years of serving the organisation, I have taken the vast opportunities to learn, before I stepped up to serve this prestigious chair of the President at a very young age. It is an honour to lead the club during its 50th Year, to shoulder the legacy laid down by the Past Presidents while bringing in fresh ideas to celebrate the Golden Jubilee.

Innovation during the Pandemic: Starting from the installation, to virtual regular meetings, service projects engaging every Leo, thoughtful engagement techniques, use of technology to keep every Leo involved throughout the year, service projects that address the need of the hour, ways to create a human connection through online platforms and furthering the cause Leoism despite the pandemic. We have successfully innovated throughout the year to make it grander than ever.

Lions Club & Lions District

The key behind every successful Leo club is their parent club, and I am proud to have kept the Lions President in loop and seeking guidance before every project we undertake. Our presentation at the DG Visit of Lions Club was so impressive that the DG requested to be invited to a separate Leo Club of Juhu meeting. One of the rarest things to have occurred in the history of our club is the presence of the DG himself in one of us events soon after his insistence.

Teamwork & Grooming New Leos: I have always kept an eye on upcoming leaders, aspirers, groomed them, trained them and given them opportunities wherever possible lead by only one thought: Together We Can Do So Much! Being the President I created specialised posts outside of the Board to give each Leo an opportunity to grow and contribute. Creative, Social Media, Sports, Events, PRIDE, Membership, Hunger & Golden Jubilee are some of the avenues Leos were offered leadership roles in.

Social Media and Club Branding: Image building and furthering the brand of Leoism and the club has always been of dire importance to me. From working day in and day out on it to bringing a wave of social media engagement by churning out a dream team. I spearheaded some of the most innovative campaigns online including Feed the Strays – an image building marvel. From creating the club's website in my initial days to activating every front of the clubs PR, social media and image building have been my strong pursuits. [LINK TO ALL SOCIAL MEDIA PROFILES.](#)

Leo District & Multiple

From heading initiatives to twinning with almost all clubs, I have made sure the club has been at the forefront in terms of participation. Not just participation in terms of being present, from supporting the District & Multiple in all its initiatives to stepping up whenever needed, we have actively participated at the District & Multiple. I have spearheaded the initiative of Micro Hangout at the beginning of the year to bring club micro members closer during these tough times.
